

Come Hear Rabbi Michael Lerner Speak about Reclaiming America from the Religious Right

“Michael Lerner is a rare voice of sanity and intelligence in a nation where our moral values have been corrupted by the greed of the market and the ambitions of empire. Michael Lerner has written a spiritual manifesto for a new kind of social change movement that could challenge the globalization of selfishness and speak to our highest human need to connect to a life of higher purpose than the materialism and me-firstism of the competitive marketplace.

“Michael Lerner is one of America’s most important spiritual teachers, a contemporary prophet whose insightful and visionary thinking has already had a profound impact on American culture and thought.”
